Let us show you a proposition that will beat anything you can do building. Now it is this way. We own a brand new house we took in on a trade and we can self you this house at figures less than you can buy the ground and build the house and we can give you a good chance to pay for it too. This house was built of the best red pressed brick and the finish is as nice as could be given it. The lots are south front and you get 160 feet front and 120 feet deep, so you have all the ground you want. This house has 4 rooms and a large bath room—has pantry and lots of closet room. The location is in beautiful Grand View close to the car line. We can sell you this house less than you can possibly build if and the terms are to suit you. Rapid Progress Is Being Made by the Men Cleaning Camp City Well.

Camp City, N. M., April 29.-The work of forcing the sand out of the drill hole at the well in an effort to extricate the fish tall drill which is stuck at a depth of 1246 feet, is progressing at the rate of 150 feet a day. The progress Friday was 170 feet.

Gas Bubbles Prevalent.
The water forced up the pipe shows numerous gas bubbles and some oil cum, resembling petroleum. The hole is now 1000 feet deep, leav-ing only 276 feet more to go to reach the place where the drill is stuck.

Heavy Water Pressure. The work of sinking is done by forcing with the pump a jet of water under 200 pounds pressure to the bottom and carrying the dissolved material up to the surface through the casing. It is expected that the stream of water will at once liberate the drill, which will then be dropped to the bottom of the old hole, 1270 feet deep and drilling Working Night and Day.

A fire which was said to have started from the T. & P. passenger train burned the fences and siding of the stock yards in the Vai Verde addition of East El Paso and was burning a circle around

The fire destroyed the feed house and several tons of cotton seed hulls and spread to the quarantine pens. A chemical engine from the central station was sent to the scene of the fire and prevented it from spreading to the stock yards, the slaughter house and to a large oil tank near the yards. The T. & P. fire fighting force consisting of two switch engines and a section of hose was also sent to the fire and assisted in putting out the blaze. The loss is estimated at \$1900.
